# INDEPENDENT AUDITORS' REPORT

Wall,  
Smith,  
Bateman Inc.

To the Board of Directors  
Pagosa Peak Open School  
Pagosa Springs, Colorado

## Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Pagosa Peak Open School (the School) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the School's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School, as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the School, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Emphasis of Matter

### *Change in Accounting Principle*

As discussed in Note 1 – Summary of Significant Accounting Policies, in fiscal year 2022 the School adopted the provisions of GASB Statement No. 87, *Leases*, that establishes the recognition of certain lease assets and deferred inflows of resources based on the payment provisions of the contract. Our opinion is not modified with respect to this matter.

## Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the School's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions.

**Certified Public Accountants**

Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the School's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, major fund budgetary comparison, pension, and other postemployment benefits information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School's basic financial statements. The nonmajor budgetary comparison schedule is presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare

the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the nonmajor budgetary comparison schedule is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Pagosa Peak Open School  
Management’s Discussion and Analysis  
For the Fiscal Year Ended June 20, 2022**

As management of the Pagosa Peak Open School (the “School”) we offer readers of the School’s financial statements this narrative overview and analysis of the financial activities of the School for the fiscal year ended June 30, 2022. We encourage readers to consider the information presented here in conjunction with additional information provided in the basic financial statements.

**Financial Highlights**

At the close of its 5<sup>th</sup> year of operation, the assets and deferred outflows of the School exceeded its liabilities and deferred inflows by \$1,127,194 (net position) an increase of \$637,061.

The School’s unrestricted net position shows a deficit of \$684,096 and is primarily the result of GASB Statements 68 and 75, which require the School to report its proportionate share of the PERA School Division Statewide Defined Benefit Pension Plan and Post Employment Benefit Plan Other Than Pensions (“OPEB”) net pension liabilities and related deferred inflows and outflows of resources. Over time, PERA is expected to eliminate its unfunded pension obligation through increased contribution rates and additional funding from the State of Colorado. The effect of the PERA pension and OPEB liabilities on the School’s net position is summarized below.

	Governmental Activities	
	6/30/2022	6/30/2021
Net Position (GAAP Basis)	\$ 1,127,194	\$ 490,133
Net Pension Liability	1,387,722	1,776,859
Net OPEB Liability	67,138	64,611
Deferred Outflow of Resources related to Pensions and OPEB	(630,126)	(1,076,996)
Deferred Inflows of Resources related to Pensions and OPEB	545,459	717,793
Net Position Excluding Pensions:	\$ 2,497,387	\$ 1,972,400

At the close of the fiscal year the School’s governmental funds reported a combined ending fund balance of \$591,728, an increase of \$175,300.

The School’s operations are funded primarily through tax revenue received under Colorado’s School Finance Act (Per Pupil Revenue, or PPR).

**Overview of Financial Statements**

This discussion and analysis are intended to serve as an introduction to the School’s basic financial statements. The School’s basic financial statements are comprised of three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements.

**Government-wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the School’s finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the School’s assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of School is improving or deteriorating.

The statement of activities presents information showing how the School’s net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items

**Pagosa Peak Open School  
Management's Discussion and Analysis  
For the Fiscal Year Ended June 20, 2022**

that will only result in cash flows in future fiscal periods (e.g., uncollected grant expenses and earned but unpaid salary and benefits).

The government-wide financial statement of activities distinguishes functions/programs of the School supported primarily by per pupil revenue (PPR) or property, income, and sales taxes passed through from the School's chartering district (Archuleta County School District 50JT) received from the County and State. The governmental activities of the School include instruction and supporting expenses as well as interest and fiscal charges.

The government-wide financial statements can be found on pages 8-9 of this report.

**Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School, like other governmental units or charter schools, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the School can be divided into two categories: governmental funds and proprietary funds.

**Governmental Funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the School's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the School's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The School maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund which is considered to be major. Non-major funds include the activity fund.

**Proprietary Funds** – The School maintains one type of proprietary fund, the Building Corporation Internal Service Fund. The Internal Service Fund is used to report the activities of the School's Building Corporation. The Building Corporation exists entirely for the benefit of the School and is included in the School's financial statements as an internal service fund. The Building Corporations statement of net position, statement of revenues, expenses, and changes in net position and statement of cash flows can be found on pages 14-16 of this report.

**Budget** – School adopts an annual appropriated budget for its general fund, designated grants fund, and activity fund. Budgetary comparison schedules have been provided for these funds to demonstrate compliance with the budget.

**Notes to the basic financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. This information is provided in pages 17-40 of this report.

**Government-wide Financial Analysis** –As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of School, assets exceeded liabilities by \$1,127,194 for all government funds as the close of the most recent fiscal year.

**Pagosa Peak Open School  
Management's Discussion and Analysis  
For the Fiscal Year Ended June 20, 2022**

	Governmental Activities	
	6/30/2022	6/30/2021
Current and Other Assets	\$ 1,313,327	\$ 694,979

Net Position, Beginning	490,133	518,409
Net Position Ending	<u>\$ 1,127,194</u>	<u>\$ 490,133</u>

The School's net position shows an increase of \$637,061 over the prior year.

**Pagosa Peak Open School  
Management's Discussion and Analysis  
For the Fiscal Year Ended June 20, 2022**

**Financial Analysis of the Government's Funds**

As noted earlier, the School uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

**Governmental Funds.** The focus of the School's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the School's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the School's net resources available for spending at the end of the fiscal year. As of the end of the current fiscal year, June 30, 2022, the School's governmental funds reported a combined ending fund balance of \$591,728, an increase of \$175,300.

**General Fund Budgetary Highlights**

The School approves a budget in June based on enrollment projections for the following school year. In October after enrollment stabilizes, adjustments are made to the budget. Enrollment for FY 21/22 was 120 funded pupil count. As of the October 2022 count, actual enrollment was 125 students.

Actual revenues in the General Fund were less than budgeted by \$407,555. This is primarily due to the School budgeting the full award of the BEST grant. The BEST grant was awarded to the school to assist with capital improvements. The remaining grant funds will be received and spent in FY2022-2023.

Actual expenditures in the General Fund were less than budgeted by \$422,706. Again this variance is primarily due to the School budgeted the full BEST grant award while not spending receiving or spending the full grant award in the fiscal year.

**Capital Asset and Debt Administration**

The School's investment in capital assets was \$4,860,533 for FY22. Total accumulated depreciation for FY 2021-2022 was \$204,123 resulting in net capital assets of \$4,666,409. Detailed information can be found on page 25 of this report.

**Long-Term Debt**

The School entered into a \$2,900,000 loan agreement with the U.S Department of Agriculture in May 2020. Proceeds of the loan were used to purchase the School's building. The loan carries an interest rate of 2.375%. Monthly principal and interest payments in the amount of \$9,365 are due through May 2060. Detailed information can be found on page 26 of this report.

During the fiscal year ended June 30, 2022, the School entered into a \$100,000 loan agreement with Region 9 Economic Development District of Southwest Colorado, Inc. The loan proceeds were used to provide matching funds related to the renovation at the School's building. The loan carries an interest rate of 5.25%. Monthly principal payments in the amount of \$1,200 are due beginning in May 2022 through April 2027. Detailed information can be found of page 27 of this report.

**Economic Factors and Next Year's Budget**

The primary factor driving the budget for the School is student enrollment. Funded Pupil Count was 120 for 2021 and 120 for 2022. Funded pupil count for 2023 is 125. Per pupil revenue for the School increased by \$878.29 from \$8,145 in 2021 to \$9,023.29 in 2022. Per pupil revenue for fiscal year 2022-2023 is \$9,640.

**Requests for Information**

This financial report is designed to provide a general overview of the School's finances for all those with an interest in the School's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Pagosa Peak Open School, 3133 Cornerstone Dr, Pagosa Springs, CO 81147.

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of Pagosa Peak Open School (the “School”) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant policies.

**Financial Reporting Entity**

The financial reporting entity consists of the School, organizations for which the School is financially accountable, and organizations that raise and hold economic resources for the direct benefit of the School. All funds, organizations, institutions, agencies, departments and offices that are not legally separate are part of the School. Legally separate organizations for which the School is financially accountable are considered part of the reporting entity. Financial accountability exists if the School appoints a voting majority of the organization’s governing board and is able to impose its will on the organization, or if the organization has the potential to provide benefits to, or impose financial burdens on the School.

The Pagosa Peak Open School Building Corporation (PPOSBC or the Corporation) is considered to be financially accountable to the School. The purpose of the Corporation is to hold title to real and/or personal property and for making the same available for use by Pagosa Peak Open School, and to otherwise provide a public building, facilities, and equipment. The Corporation is considered to be part of the School for financial reporting purposes because its resources are entirely for the direct benefit of the School and is blended into the School’s financial statements as a proprietary fund. Separate financials are not available.

The School is a component unit of the Archuleta School District 50JT (the District). The School’s charter is authorized by the District and the majority of the School’s funding is provided by the District. The District passes through 95% of the per pupil revenue and mill levies to the School, maintaining 5% as an administrative fee. It is the administrative position of the Colorado Department of Education that a charter school has the same relationship to a public school as does any other school program or school building within a school district. A charter school is part of a local school district that is a political subdivision of the State of Colorado. The School has organized as non-profit corporations under the laws of the State of Colorado and Section 501(c)(3) of the Internal Revenue Code. The School was created to help guide students in development of their character and academic potential through an academically rigorous, content rich educational program.

**Basis of Presentation**

**Government-Wide Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the activities of the government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The School does not report any business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues.

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

Amounts reported as Program revenues include:

- Charges to customers or applicants for goods, services, or privileges provided;
- Operating grants and contributions; and
- Capital grants and contributions.

Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all District flow through per pupil funding.

Direct expenses are those clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment; and 2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or segment. Other items not properly included among program revenues are reported instead as general revenues.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned; expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

#### Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period, or soon enough thereafter, to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Entitlement revenues are recognized to the extent of related expenditures or when compliance with matching requirements is met. A receivable is established when the related expenditures exceed revenue receipts and an unearned revenue account is established when receipts exceed the related expenditures. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

All other revenue items are considered to be measurable and available only when cash is received by the government.

The School reports the following major governmental funds:

- General Fund This fund is the primary operating fund of the School. It is used to account for all financial resources except those required to be accounted for in another fund.
- Designated Grants Fund This special revenue fund is used to account for the proceeds received from various Colorado Department of Education and outside Foundation grants and donations.

Proprietary fund financial statements are used to account for activities, which are similar to those often found in the private sector. The measurement focus is dependent upon determination of net income, financial position, and cash flows.

The School reports the following internal service fund:

- Building Corporation Fund This fund used is used to account for the activities for the Pagosa Peak School Building Corporation.

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

The proprietary fund is accounted for using the accrual basis of accounting as follows:

- Revenues are recognized when earned and expenses are recognized when the liabilities are incurred.
- Current-year contributions, administrative expenses, and premium payments, which are not received or paid until the subsequent year, are accrued.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Certain eliminations have been made as prescribed in GASB Statement No. 34 in regards to interfund activities, payables, and receivables. All internal balances in the Statement of Net Position have been eliminated.

**Budgets and Budgetary Accounting**

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for all funds. All annual appropriations lapse at fiscal year-end.

The School adheres to the procedures described below in establishing the budgetary data reflected in the financial statements.

- Budgets are required by state law for all funds. By May 31, the Administrators submits to the Board of Education a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them. All budgets lapse at year-end.
- Prior to June 30, the budget is adopted by formal resolution.
- Expenditures may not legally exceed appropriations at the fund level.
- Revisions that alter the total expenditures of any fund must be approved by the Board of Education.
- Budgeted amounts reported in the accompanying financial statements are as originally adopted by the Board of Education.

**Stewardship**

The Building Corporation Fund is a 501(c)(3) nonprofit, therefore no budget was adopted during FY2022.

Expenditures exceeded appropriations in the Activity Fund by \$3,848 during fiscal year 2022. This may be a violation of Colorado Revised Statutes 22-44-115(1).

**Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position/Fund Balance**

**Cash**

The School's cash and cash equivalents are considered to be cash-on-hand and demand deposits, which are deposited in checking accounts which are legally authorized.

**Deposits**

All deposits are reported at their gross value.

**Due from Primary Government**

Activities with the primary government that are representative of cash held by the primary government at the end of the fiscal year are reported as accounts receivable and accounts payable in the financial statements. Amounts due from the Primary Government – Archuleta School District as of June 30, 2022 was \$446,203 for their portion of per

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

pupil revenue and grants receivable from the Colorado Department of Education that flow through the District at year end.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Capital Assets

Capital Assets, which include property, buildings, and equipment, are reported as governmental activity capital assets if acquired through operating resources. Capital assets are defined by the School as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year.

Such assets will be recorded at historical cost or estimated historical cost if purchased or constructed. Where cost cannot be determined from the available records, estimated historical cost will be used to record the estimated value of the assets. Assets acquired by gift or bequest are recorded at their fair market value at the date of transfer.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets lives are not capitalized.

Property, buildings and equipment of the School will be depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	30-40
Building Improvements	10-20
Equipment	15

Unearned Revenues

Unearned revenues are amounts that have been collected but have not met the requirements needed for revenue recognition.

Long-Term Obligations

Long-term obligations in the government-wide financial statements are reported as liabilities in the applicable activity.

Vacation, Sick Leave, and Other Compensated Absences

Employees are entitled to certain compensated absences based on their length of employment. Except for sick leave, compensated absences do not vest or accumulate and are recorded as expenditures when they are paid. Since all employees are contracted to work a set number of days during a year, no vacation accrual accumulates.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

Net Position/Fund Balance

In the government-wide financial statements and for the proprietary fund statements, net position is either shown as net investment in capital assets, with these assets essentially being nonexpendable; restricted when constraints placed on the net position are externally imposed; or unrestricted.

For the governmental fund presentation, fund balances that are classified as “nonspendable” include amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash, for example, inventories and prepaid amounts.

Fund balance is reported as “restricted” when constraints placed on the use of resources are either (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the Board of Education, are reported as “committed” fund balance. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action (for example, legislation, resolution, ordinance) it employed to previously commit those amounts.

Amounts that a government intends to use for a specific purpose; intent is expressed by the Board of Education, are reported as “assigned” fund balance.

All remaining fund balance in the General Fund is presented as “unassigned”.

Net Position/Fund Balance Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government’s policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance, if allowed under the terms of the restriction.

Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Revenues and Expenditures

Revenues for governmental funds are recorded when they become measurable and available. Generally, per-pupil operating revenues and fees are recognized when received. Grants from other governments are recognized to the extent of related expenditures, or when compliance with matching requirements is met. A receivable is established when the related expenditures exceed revenue receipts and a deferred revenue account is established when receipts exceed the related expenditures. Expenditures for governmental funds are generally recognized when the related liability is incurred.

Pensions

The District participates in the School Division Trust Fund (SCHDTF), a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees' Retirement Association of Colorado (“PERA”). The net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, pension

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

expense, information about the fiduciary net position (FNP) and additions to/deductions from the FNP of the SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Postemployment Benefits (OPEB)

The District participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit OPEB fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position (FNP) and additions to/deductions from the fiduciary net position of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

Reclassification

Certain reclassifications have been made to the prior year financial statement presentation to correspond to the current year's format. Total net position/fund balance and change in net position/fund balance are unchanged by these reclassifications.

New Accounting Pronouncements

During fiscal year 2022, the School adopted the provisions of GASB Statement No. 87, *Leases*, that establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The standard requires recognition of certain lease assets and liabilities that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the lease contract. Under the statement, a lessee is required to recognize a lease liability and a tangible right to use asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. This standard did not have an impact on beginning net position or fund balance.

**NOTE 2: CASH AND INVESTMENTS**

Cash and investments at June 30, 2022 were as follows:

Governmental Funds Cash & Cash Equivalents	\$ 482,304
Internal Service Fund Cash & Cash Equivalents	127,609
Governmental Activities - Unrestricted	<u>\$ 609,913</u>
Internal Service Fund Restricted Cash & Cash Equivalents	<u>\$ 22,481</u>

Deposits

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. The School's cash and investment balances are collateralized as follows:

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

	Bank Balance	Carrying Balance
FDIC Insured	\$ 409,532	\$ 609,913
PDPA Collateralized	235,972	-
	\$ 645,504	\$ 609,913

At June 30, 2022, State regulatory commissioners have indicated that all financial institutions holding deposits for the School are eligible public depositories. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. PDPA allows the financial institution to create a single collateral pool for all public funds held. The pool is to be maintained by another institution, or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102 percent of the uninsured deposits.

Restricted Cash

The Pagosa Peak Open School Building Corporation is required to contribute \$938 monthly to a reserve account until the balance reaches \$112,404 to meet reserve requirements under the United States Department of Agriculture Community Facilities Loan.

Custodial Credit Risk

Deposits in financial institutions, reported as cash, cash equivalents, and investments had a bank balance as summarized above at June 30, 2022, which was fully insured by depository insurance or secured with collateral held through PDPA. All investments evidenced by individual securities are registered in the name of the School. Investment interest rate risk.

Investment credit risk

1. The School has no investment policy that limits its investment choices other than the limitation of state law as follows:
2. Direct obligations of the US government, its agencies, and instrumentalities to which the full faith and credit of the US government is pledged, or obligations to the payment of which the full faith and credit of the State is pledged;
3. Certificates of deposit or savings accounts that are either insured or secured with acceptable collateral with in-state financial institutions, and fully insured certificates of deposit or savings accounts in out of state financial institutions;
4. With certain limitation, negotiable certificates of deposit, prime bankers acceptances, prime commercial paper, and repurchase agreements with certain limitations;
5. County, municipal, or school tax supported debt obligations; bond or revenue anticipation notes; money; or bond or revenue anticipation notes of public trusts whose beneficiary is a county, municipality, or school;
6. Notes or bonds secured by a mortgage or trust deed insured by the Federal Housing Administrator and debentures issued by the Federal Housing Administrator, and obligations of the National Mortgage Association; and

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

7. Money market funds regulated by the Securities and Exchange Commission (SEC) in which investments consist of the investments mentioned in 1, 2, 3, and 4, above.

Concentration of investment credit risk

The School has no formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates other than those contained in Colorado Revised Statutes. The School did not hold any investments as of June 30, 2022.

The School places no limit on the amount it may invest in any one issuer. At June 30, 2022, the School had no concentration of credit risk.

The School would invest excess funds under the prudent investor rule. The criteria for selection of investments and their order of priority are: 1) safety; 2) liquidity; and 3) yield.

**NOTE 3: INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS**

***Interfund Receivables/Payables***

The School reports interfund balances between many of its funds. The balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. Interfund balances are generally expected to be repaid within one year of the financial statement date.

Interfund receivable and payable balances at June 30, 2022, were as follows:

Receivable Fund	Payable Fund	Amount
General Fund	Designated Grants Fund	\$ 58,706
		\$ 58,706

***Interfund Transfers***

Interfund transfers for the year ended June 30, 2022, were as follows:

Transfer In	Transfer Out	Amount
General Fund	Internal Service Fund	\$ 98,000
		\$ 98,000

Transfers from the Internal Service Fund (Building Corporation Fund) were made to the General Fund for matching funds for the construction grant.

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

**NOTE 4: CAPITAL ASSETS**

Capital asset activity for the year ended June 30, 2022, is summarized below:

	Balance 6/30/2021	Additions	Deletions	Balance 6/30/2022
<i>Governmental Activities:</i>				
Capital Assets not being depreciated				
Land	\$ 715,000	\$ -	\$ -	\$ 715,000
Construction in Progress	21,539	478,641	-	500,180
Total Capital Assets not being depreciated	<u>736,539</u>	<u>478,641</u>	<u>-</u>	<u>1,215,180</u>
Capital Assets being depreciated				
Building	3,628,063	-	-	3,628,063
Equipment	27,289	-	-	17,290
Total capital assets being depreciated	<u>3,655,352</u>	<u>-</u>	<u>-</u>	<u>3,645,353</u>
Less accumulated depreciation for:				
Building	(105,819)	(92,431)	-	(196,521)
Equipment	(4,874)	(1,000)	-	(3,602)
Total accumulated depreciation	<u>(110,693)</u>	<u>(93,431)</u>	<u>-</u>	<u>(204,123)</u>
Total capital assets being depreciated, net	<u>3,544,659</u>	<u>(93,431)</u>	<u>-</u>	<u>3,441,230</u>
Total Capital Assets	<u>\$ 4,281,198</u>	<u>\$ 385,210</u>	<u>\$ -</u>	<u>\$ 4,666,409</u>

Depreciation expense was charged to functions/programs of the primary government as follows:

Instructional Program	\$ 92,431
Transportation	<u>1,000</u>
Total Depreciation Expense	<u>\$ 93,431</u>

**NOTE 5: LEASES**

The School is leasing out the building located at 3133 Cornerstone Dr, Pagosa Springs, Colorado to two separate entities. The School has recognized a lease receivable as of June 20, 2022 for the terms of the leases.

Total lease revenue recognized during the fiscal year ending June 30, 2022 is \$34,488 and \$3,462 of interest income.

The following is the lease receivable schedule as of June 30, 2022:

Fiscal Year	Principal	Interest	Total
2023	\$ 84,654	\$ 6,426	\$ 91,080
2024	87,623	3,457	91,080
2025	<u>52,435</u>	<u>777</u>	<u>53,212</u>
	<u>\$ 224,712</u>	<u>\$ 10,660</u>	<u>\$ 235,372</u>

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

On May 1, 2020, the Pagosa Peak Open School Building Corporation (Building Corp), a component unit, purchased the facilities used by the School. The School rents the building from the Building Corp to repay the USDA loan. Rental expense for the year ended June 30, 2022 was approximately \$156,000.

This activity is eliminated on the Statement of Activities and is not subject to GASB 87, *Leases*, as this is interfund activity.

Future minimum rental commitments for the building operating lease as of June 30, are as follows:

Year Ended June 30,	
2023	\$ 180,000
2024	180,000
2025	180,000
2026	180,000
2027	180,000
2028-2032	900,000
2033-2037	900,000
2038-2042	900,000
2043-2047	900,000
2048-2052	900,000
2053-2057	900,000
2058-2060	540,000
	<u>\$ 6,840,000</u>

**NOTE 6: OUTSTANDING DEBT OBLIGATIONS**

Long-term debt activity for the year ended June 30, 2022 was as follows:

	Balance 06/30/2021	Advances	Payments	Balance 06/30/2022	Current Portion
<i>Governmental Activities</i>					
Notes Payable					
United States Department of Agriculture					
Community Facilities Direct Loan	\$ 2,852,310	\$ -	\$ (45,123)	\$ 2,807,187	\$ 46,207
Region 9 Economic Development Loan	-	100,000	(2,068)	97,932	12,556
	<u>\$ 2,852,310</u>	<u>\$ 100,000</u>	<u>\$ (47,191)</u>	<u>\$ 2,905,119</u>	<u>\$ 58,763</u>

**Notes Payable**

The Pagosa Peak Open School Building Corporation (the Corporation) entered into a \$2,900,000 loan agreement with the United States Department of Agriculture (USDA) at 2.375% interest rate, for the purchase of land and building and related building improvements incurred by the Corporation. The Corporation has pledged gross income and revenue to be derived from the operation of the facility to pay the principal and interest payments. Regular monthly principal and interest payments of \$9,367 began May 2020 with final payment due May 2060. The building and land are included in capital assets at a cost of \$4,343,063 and accumulated depreciation of \$196,521.

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

The Pagosa Peak Open School Building Corporation (the Corporation) entered into a \$100,000 loan agreement with Region 9 Economic Development District of Southwest Colorado, Inc. at 5.25% interest rate, for matching funds related to renovations at the K-7 building. Regular monthly principal and interest payments of \$1,200 begin May 2022 with final payment due April 2027.

The annual debt service for the notes payable are as follows:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2023	\$ 58,763	\$ 68,013	\$ 126,776
2024	60,124	66,652	126,776
2025	61,524	65,252	126,776
2026	62,947	63,829	126,776
2027	96,973	62,255	159,228
2028-2032	272,933	288,957	561,890
2033-2037	307,300	254,576	561,876
2038-2042	346,016	215,870	561,886
2043-2047	389,596	170,504	560,100
2048-2052	438,664	123,215	561,879
2053-2057	493,917	67,966	561,883
2058-2060	316,362	113,967	430,329
	<u>\$ 2,905,119</u>	<u>\$ 1,561,056</u>	<u>\$ 4,466,175</u>

**NOTE 7: DEFICIT NET POSITION**

The Governmental Activities has a net position of \$1,127,194, and an unrestricted net position deficit of \$(684,096) primarily due to adding the PERA and OPEB net pension liabilities and related deferred inflows and deferred outflows of resources of \$1,370,193 further described in Notes 10 and 12. As the School has no control over pension and other retirement benefits or contribution rates, we expect this deficit net position to decrease as PERA continues to reduce its net pension liability and OPEB liability.

**NOTE 8: SUMMARY DISCLOSURE OF SIGNIFICANT COMMITMENTS AND CONTINGENCIES AND LEGAL COMPLIANCE**

**Claims and Judgments**

The School participates in state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the School is required to reimburse the grantor government. As of June 30, 2022, the School believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on any of the individual governmental funds or the overall financial position of the School.

**Tabor Amendment**

In November 1992, Colorado voters passed the Tabor Amendment (Amendment 1) to the State Constitution which limits state and local government tax powers and imposes spending limitations.

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

The School is subject to the Tabor Amendment. Fiscal year 1993 provides the basis for limits in future years to which may be applied allowable increases for inflation and assessed valuation. Revenue received in excess of the limitations may be required to be refunded, unless authorized through ballot measure to retain the revenue. The Tabor Amendment is subject to many interpretations, but the School believes it is in substantial compliance with the Amendment.

The Tabor Amendment requires the School to establish a reserve for emergencies. At June 30, 2022, the School's reserve of \$50,000 was recorded as a restricted fund balance in the General Fund.

**Mill Levy Override**

Archuleta School District passed a mill levy override vote in November of 2018 for which the District began receiving funds in calendar year 2019. The School received \$110,273 worth of these override funds and the remaining override funds unspent as of June 30, 2022 was \$0.

**Construction Project**

The School is in the process of renovating the school building. The school renovations are estimated to be completed by August 2022. As of June 30, 2022 project costs are approximately \$478,641 with total estimated completion costs of \$1,443,087. The School was awarded the BEST Grant in the amount of \$663,820 with a School match of \$779,267 for the project.

**NOTE 9: RISK MANAGEMENT**

The School is exposed to various risks of loss related to: torts; theft of; damage to; destruction of assets; injuries to employees; and natural disasters. The School funds its outside insurance purchases, deductibles, and uninsured losses through the General Fund. The School carries commercial insurance for all other risks of loss, including errors and omissions and property. Settled claims resulting from these risks have not exceeded commercial coverage.

**NOTE 10: DEFINED BENEFIT PENSION PLAN**

***General Information about the Pension Plan***

*Plan description.* Eligible employees of the District are provided with pensions through the SCHDTF—a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available annual comprehensive financial report (ACFR) that can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

*Benefits provided as of December 31, 2021.* PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5% and then multiplied by years of service credit

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

- The value of the retiring employee’s member contribution account plus a 100% match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100% of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50% or 100% on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

Upon meeting certain criteria, benefit recipients who elect to receive a lifetime retirement benefit generally receive post-retirement cost-of-living adjustments, referred to as annual increases in the C.R.S. Subject to the automatic adjustment provision (AAP) under C.R.S. § 24-51-413, eligible benefit recipients under the PERA benefit structure who began membership before January 1, 2007, and all eligible benefit recipients of the DPS benefit structure will receive the maximum annual increase (AI) or AI cap of 1.00% unless adjusted by the AAP. Eligible benefit recipients under the PERA benefit structure who began membership on or after January 1, 2007, will receive the lesser of an annual increase of the 1.00% AI cap or the average increase of the Consumer Price Index for Urban Wage Earners and Clerical Workers for the prior calendar year, not to exceed a determined increase that would exhaust 10% of PERA’s Annual Increase Reserve (AIR) for the SCHDTF. The AAP may raise or lower the aforementioned AI cap by up to 0.25% based on the parameters specified in C.R.S. § 24-51-413.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the lifetime retirement benefit formula(s) shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

*Contributions provisions as of JUNE 30, 2022.* Eligible employees of the District are required to contribute to the SCHDTF at a rate set by Colorado statute. The contribution requirements for the SCHDTF are established under C.R.S. § 24-51-401, *et seq.* and § 24-51-413. Eligible employees are required to contribute 10.50% of their PERA-includable salary during the period of July 1, 2021 through June 30, 2022. Employer contribution requirements are summarized in the table below:

	July 1, 2021 Through June 30, 2022
Employer Contribution Rate	10.90%
Amount of Employer Contribution apportioned to the Health Care Trust Fund as specified in C.R.S. § 24-51-208(1)(f)	-1.02%
Amount Apportioned to the SCHDTF	9.88%
Amortization Equalization Disbursement (AED) as specified in C.R.S. § 24-51-411	4.50%
Supplemental Amortization Equalization Disbursement (SAED) as specified in C.R.S. § 24-51-411	5.50%
Total Employer Contribution Rate to the SCHDTF	19.88%

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

\*Contribution rates for the SCHDTF are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

Employer contributions are recognized by the SCHDTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions to the SCHDTF. Employer contributions recognized by the SCHDTF from the District were \$149,947, for the year ended June 30, 2022.

For purposes of GASB 68 paragraph 15, a circumstance exists in which a nonemployer contributing entity is legally responsible for making contributions to the SCHDTF and is considered to meet the definition of a special funding situation. As specified in C.R.S. §24-51-414, the State is required to contribute \$225 million (actual dollars) direct distribution each year to PERA starting on July 1, 2018. A portion of the direct distribution payment is allocated to the SCHDTF based on the proportionate amount of annual payroll of the SCHDTF to the total annual payroll of the SCHDTF, State Division Trust Fund, Judicial Division Trust Fund, and Denver Public School Division Trust Fund. In addition to the \$225 million (actual dollars) direct distribution due July 1, 2022, House Bill (HB) 22-1029, instructs the State treasurer to issue a warrant to PERA in the amount of \$380 million (actual dollars), upon enactment, with reductions to future direct distributions scheduled to occur July 1, 2023, and July 1, 2024.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

The net pension liability for the SCHDTF was measured as of December 31, 2021, and the total pension liability (TPL) used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2020. Standard update procedures were used to roll forward the TPL to December 31, 2021. The District's proportion of the net pension liability was based on the District contributions to the SCHDTF for the calendar year 2021 relative to the total contributions of participating employers and the State as a nonemployer contributing entity.

At June 30, 2022, the District reported a liability of \$1,387,722 for its proportionate share of the net pension liability that reflected a reduction for support from the State as a nonemployer contributing entity. The amount recognized by the District as its proportionate share of the net pension liability, the related support from the State as a nonemployer contributing entity, and the total portion of the net pension liability that was associated with the District were as follows:

School's proportionate share of the net position liability	\$ 1,387,722
The State's proportionate share of the net pension liability as a nonemployer contributing entity associated with the School	<u>159,085</u>
Total	<u><u>\$ 1,546,807</u></u>

At December 31, 2021, the District's proportion was 0.012%, which was an increase of 0.0002% from its proportion measured as of December 31, 2020.

For the year ended June 30, 2022, the District recognized pension expense of (\$120,981) and revenue of \$16,984 for support from the State as a nonemployer contributing entity. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 53,128	\$ -
Changes of assumption or other inputs	105,942	-
Net difference between projected and actual earnings on pension plan investments	-	521,742
Changes in proportion and differences between contributions recognized and proportionate share of contributions	351,181	-
Contributions subsequent to the measurement date	74,368	-
<b>Total</b>	<b>\$ 584,619</b>	<b>\$ 521,742</b>

\$74,368 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	
2023	\$ 225,673
2024	(52,275)
2025	(121,559)
2026	(63,328)
2027	-
Thereafter	-

*Actuarial assumptions.* The TPL in the December 31, 2020 actuarial valuation was determined using the following actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.30%
Real wage growth	0.70%
Wage inflation	3.00%
Salary increases, including wage inflation	3.40 – 11.00%
Long-term investment Rate of Return, net of pension plan investment expenses, including price inflation	7.25%
Discount rate	7.25%
Post-retirement benefit increases:	
PERA Benefit Structure hired prior to 1/1/07 and DPS benefit structure (compounded annually)	1.00%
PERA Benefit Structure hired after 12/31/06 <sup>1</sup>	Financed by the AIR

<sup>1</sup> Post-retirement benefit increases are provided by the AIR, accounted separately within each Division Trust Fund, and subject to moneys being available; therefore, liabilities related to increases for members of these benefit tiers can never exceed available assets.

The TPL as of December 31, 2021, includes the anticipated adjustments to contribution rates and the AI cap, resulting from the 2020 AAP assessment, statutorily recognized July 1, 2021, and effective July 1, 2022.

The mortality tables described below are generational mortality tables developed on a benefit-weighted basis.

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

The pre-retirement mortality assumptions were based upon the PubT-2010 Employee Table with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions were based upon the PubT-2010 Healthy Retiree Table, adjusted as follows:

- **Males:** 112% of the rates prior to age 80 and 94% of the rates for ages 80 and older, with generational projection using scale MP-2019.
- **Females:** 83% of the rates prior to age 80 and 106% of the rates for ages 80 and older, with generational projection using scale MP-2019.

Post-retirement non-disabled beneficiary mortality assumptions were based upon the Pub-2010 Contingent Survivor Table, adjusted as follows:

- **Males:** 97% of the rates for all ages, with generational projection using scale MP-2019.
- **Females:** 105% of the rates for all ages, with generational projection using scale MP-2019.

Disabled mortality assumptions were based upon the PubNS-2010 Disabled Retiree Table using 99% of the rates for all ages with generational projection using scale MP-2019.

The actuarial assumptions used in the December 31, 2020, valuation were based on the results of the 2020 experience analysis for the period January 1, 2016, through December 31, 2019, and were reviewed and adopted by the PERA Board at their November 20, 2020, meeting.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in the Experience Study report dated October 28, 2020

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and then adding expected inflation.

The PERA Board first adopted the 7.25% long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the Board's November 15, 2019, meeting, to be effective January 1, 2020. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

<b>Asset Class</b>	<b>Target Allocation</b>	<b>30 Year Expected Geometric Real Rate of Return</b>
Global Equity	54.00%	5.60%
Fixed Income	23.00%	1.30%
Private Equity	8.50%	7.10%
Real Estate	8.50%	4.40%
Alternatives	6.00%	4.70%
Total	<u>100.00%</u>	

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

Note: In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

*Discount rate.* The discount rate used to measure the TPL was 7.25%. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00%.
- Employee contributions were assumed to be made at the current member contribution rates in effect for each year, including the scheduled increases in Senate Bill (SB) 18-200, required adjustments resulting from the 2018 AAP assessment, and the additional 0.50% resulting from the 2020 AAP assessment, statutorily recognized July 1, 2021 and effective July 1, 2022. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law for each year, including the scheduled increase in SB 18-200, required adjustments resulting from the 2018 AAP assessment, and the additional 0.50% resulting from the 2020 AAP assessment, statutorily recognized July 1, 2021, and effective July 1, 2022. Employer contributions also include the current and estimated future AED and SAED, until the Actuarial Value Funding Ratio reaches 103%, at which point, the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions reflect reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- As specified in law, the State, as a nonemployer contributing entity, will provide an annual direct distribution of \$225 million (actual dollars), which commenced July 1, 2018, that is proportioned between the State, School, Judicial, and DPS Division Trust Funds based upon the covered payroll of each Division. The annual direct distribution ceases when all Division Trust Funds are fully funded.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial fiduciary net position, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. AIR transfers to the fiduciary net position and the subsequent AIR benefit payments were estimated and included in the projections.
- The projected benefit payments reflect the lowered AI cap, from 1.25% to 1.00%, resulting from the 2020 AAP assessment, statutorily recognized July 1, 2021, and effective July 1, 2022.
- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, the projection test indicates the SCHDTF's FNP was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25% on pension plan investments was applied to all periods of projected benefit payments to determine

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

the TPL. The discount rate determination does not use the municipal bond rate, and therefore, the discount rate is 7.25%. There was no change in the discount rate from the prior measurement date.

*Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate.* The following presents the proportionate share of the net pension liability calculated using the discount rate of 7.25%, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.25%) or one-percentage-point higher (8.25%) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Proportionate share of the net pension liability	\$ 2,042,612	\$ 1,387,722	\$ 841,239

*Pension plan fiduciary net position-* Detailed information about the SCHDTF's fiduciary net position is available in PERA's ACFR which can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

**NOTE 11: DEFINED CONTRIBUTION PENSION PLAN**

***Voluntary Investment Program***

**Plan Description**

Employees of the School that are also members of the SCHDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Title 24, Article 51, Part 14 of the C.R.S, as amended, assigns the authority to establish the Plan provisions to the PERA Board of Trustees. PERA issues a publicly available comprehensive annual financial report for the Plan. That report can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

**Funding Policy**

The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, and Section 1402 of the C.R.S., as amended. The School does not contribute to the plan. Employees are immediately vested in their own contributions, employer contributions, if any, and investment earnings. For the year ended June 30, 2022 program members did not make any contributions to the plan.

**NOTE 12: OTHER POST-EMPLOYMENT BENEFITS**

***General Information about the OPEB Plan***

*Plan description.* Eligible employees of the District are provided with OPEB through the HCTF—a cost-sharing multiple-employer defined benefit OPEB plan administered by PERA. The HCTF is established under Title 24, Article 51, Part 12 of the Colorado Revised Statutes (C.R.S.), as amended, sets forth a framework that grants authority to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available annual comprehensive financial report (ACFR) that can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

*Benefits provided.* The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans, however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit.

C.R.S. § 24-51-1202 et seq. specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare.

Enrollment in the PERACare health benefits program is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

***PERA Benefit Structure***

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5% reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF on behalf of benefit recipients not covered by Medicare Part A.

*Contributions.* Pursuant to Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the State, School, Local Government, and Judicial Divisions are required to contribute at a rate of 1.02 percent of PERA-includable salary into the HCTF.

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions. Employer contributions recognized by the HCTF from the District were \$7,693 for the year ended June 30, 2022.

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

At June 30, 2022, the District reported a liability of \$67,138 for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2021, and the total OPEB liability (TOL) used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2020. Standard update procedures were used to roll-forward the TOL to December 31, 2021. The District's proportion of the net OPEB liability was based on the District's contributions to the HCTF for the calendar year 2021 relative to the total contributions of participating employers to the HCTF.

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

At December 31, 2021, the District proportion was 0.0079%, which was an increase of 0.001% from its proportion measured as of December 31, 2020.

For the year ended June 30, 2022 the District recognized OPEB expense of \$8,907. At June 30, 2022, District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 102	\$ 15,919
Changes of assumption or other inputs	1,390	3,642
Net difference between projected and actual earnings on pension plan investments	-	4,156
Changes in proportion and differences between contributions recognized and proportionate share of contributions	40,199	-
Contributions subsequent to the measurement date	3,816	-
<b>Total</b>	<b>\$ 45,507</b>	<b>\$ 23,717</b>

\$3,816 reported as deferred outflows of resources related to OPEB, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended June 30,	
2023	\$ 10,710
2024	3,010
2025	1,818
2026	677
2027	1,485
Thereafter	274

*Actuarial assumptions.* The TOL in the December 31, 2020 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.30%
Real wage growth	0.70%
Wage inflation	3.00%
Salary increases, including wage inflation	3.40%-11.00%
Long-term investment rate of return, net of OPEB plan investment expenses, including price inflation	7.25%
Discount rate	7.25%
Health care cost trend rates	
PERA benefit structure:	
Service-based premium subsidy	0.00 %
PERACare Medicare plans	4.50% in 2021, 6.00% in 2022 gradually decreasing to 4.50% in 2029
Medicare Part A premiums	3.75% in 2021, gradually increasing to 4.50% in 2029

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

Calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each actuarial valuation and on the pattern of sharing of costs between employers of each fund to that point.

In determining the additional liability for PERACare enrollees who are age 65 or older and who are not eligible for premium-free Medicare Part A in the December 31, 2020, valuation, the following monthly costs/ premiums (actual dollars) are assumed for 2021, for the PERA Benefit Structure:

Medicare Plan	Initial Costs for Members without Medicare Part A		
	Monthly Cost	Monthly Premium	Monthly Cost Adjusted to Age 65
Medicare Advantage/Self-Insured Rx	\$633	\$230	\$591
Kaiser Permanente Medicare Advantage HMO	596	199	562

The 2021 Medicare Part A premium is \$471 (actual dollars) per month.

All costs are subject to the health care cost trend rates, as discussed below.

Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models and industry methods developed by health plan actuaries and administrators. In addition, projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services are referenced in the development of these rates. Effective December 31, 2020, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The PERA benefit structure health care cost trend rates that were used to measure the TOL are summarized in the table below:

Year	PERACare Medicare Plans	Medicare Part A Premiums
2021	4.50%	3.75%
2022	6.00%	3.75%
2023	5.80%	4.00%
2024	5.60%	4.00%
2025	5.40%	4.00%
2026	5.10%	4.25%
2027	4.90%	4.25%
2028	4.70%	4.25%
2029+	4.50%	4.50%

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

Mortality assumptions used in the December 31, 2020 valuation for the determination of the total pension liability for each of the Division Trust Funds as shown below, reflect generational mortality and were applied, as applicable, in the determination of the TOL for the HCTF, but developed using a headcount-weighted basis. Affiliated employers of the State, School, Local Government, and Judicial Divisions participate in the HCTF.

The pre-retirement mortality assumptions for the School Division were based upon the PubT-2010 Employee Table with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for the School Division were based upon the PubT-2010 Healthy Retiree Table, adjusted as follows:

- **Males:** 112 percent of the rates prior to age 80 and 94% of the rates for ages 80 and older, with generational projection using scale MP-2019.
- **Females:** 83 percent of the rates prior to age 80 and 106% of the rates for ages 80 and older, with generational projection using scale MP-2019.

Post-retirement non-disabled beneficiary mortality assumptions were based upon the Pub-2010 Contingent Survivor Table, adjusted as follows:

- **Males:** 97% of the rates for all ages, with generational projection using scale MP-2019.
- **Females:** 105% of the rates for all ages, with generational projection using scale MP-2019.

Disabled mortality assumptions for members were based upon the PubNS-2010 Disabled Retiree Table using 99% of the rates for all ages with generational projection using scale MP-2019.

The following health care costs assumptions were updated and used in the roll forward calculation for the Trust Fund.

- Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits were updated to reflect the change in costs for the 2021 plan year.
- The health care cost trend rates for Medicare Part A premiums were revised to reflect the then-current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

Actuarial assumptions pertaining to per capita health care costs and their related trend rates are analyzed and updated annually by PERA Board's actuary, as discussed above.

The actuarial assumptions used in the December 31, 2020, valuation were based on the results of the 2020 experience analysis for the period January 1, 2016, through December 31, 2019, and were reviewed and adopted by the PERA Board at their November 20, 2020 meeting.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four to five years for PERA. Recently this assumption has been reviewed more frequently. The most recent analyses were outlined in the Experience Study report dated October 28, 2020.

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and then adding expected inflation.

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

<b>Asset Class</b>	<b>Target Allocation</b>	<b>30 Year Expected Geometric Real Rate of Return</b>
Global Equity	54.00%	5.60%
Fixed Income	23.00%	1.30%
Private Equity	8.50%	7.10%
Real Estate	8.50%	4.40%
Alternatives	6.00%	4.70%
Total	100.00%	

Note: In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

*Sensitivity of the District's proportionate share of the net OPEB liability to changes in the Health Care Cost Trend Rates.* The following presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

	<u>1% Decrease in Trend Rates</u>	<u>Current Trend Rates</u>	<u>1% Increase in Trend Rates</u>
Initial PERACare Medicare trend rate	3.50%	4.50%	5.50%
Ultimate PERACare Medicare Part A trend rate	3.50%	4.50%	5.50%
Initial Medicare Part A trend rate	2.75%	3.75%	4.75%
Ultimate Medicare Part A trend rate	3.50%	4.50%	5.50%
Net OPEB Liability	\$ 65,210	\$ 67,138	\$ 69,372

*Discount rate.* The discount rate used to measure the TOL was 7.25%. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2021, measurement date.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection year, total covered payroll was assumed to increase annually at a rate of 3.00%.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- Estimated transfers of dollars into the HCTF representing a portion of purchase service agreements intended to cover the costs associated with OPEB benefits.

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**June 30, 2022**

- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, the projection test indicates the HCTF’s FNP was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25% on OPEB plan investments was applied to all periods of projected benefit payments to determine the TOL. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25%. There was no change in the discount rate from the prior measurement date.

*Sensitivity of the District’s proportionate share of the net OPEB liability to changes in the discount rate.* The following presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25%, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.25%) or one-percentage-point higher (8.25%) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Proportionate share of the net OPEB liability	\$ 77,974	\$ 67,138	\$ 57,883

*OPEB plan fiduciary net position.* Detailed information about the HCTF’s fiduciary net position is available in PERA’s ACFR which can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

## **PAGOSA PEAK OPEN SCHOOL**

### **REQUIRED SUPPLEMENTARY INFORMATION**

In addition to the basic financial statements, a budgetary comparison schedule is required for the General Fund and, if applicable, each of the School's major special revenue funds. In addition, pension plan and OPEB contributions and the School's proportionate share of the net pension and OPEB liabilities are required to supplement the basic financial statements.

**NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION**  
**CHANGES IN BENEFIT TERMS AND ACTUARIAL ASSUMPTIONS**  
**For the Year Ended June 30, 2022**

**NOTE 1 NET PENSION LIABILITY**

Changes in assumptions or other inputs effective for the December 31 measurement period for the following years ended:

*2021*

- Required contribution increased from 10.00% to 10.50% for eligible employees.
- AI cap decreased from 1.25% to 1.00%

*2020*

- Price inflation assumption decreased from 2.40 percent per year to 2.30 percent per year.
- Real rate of investment return assumption increased from 4.85 percent per year, net of investment expenses to 4.95 percent per year, net of investment expenses.
- Wage inflation assumption decreased from 3.50 percent per year to 3.00 percent per year.
- Salary scale assumptions were revised to align with revised economic assumptions and to more closely reflect actual experience.
- Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience.
- The pre-retirement mortality assumptions were changed to the PubT-2010 Employee Table with generational projection using scale MP-2019.
- Post-retirement non-disabled mortality assumptions were changed to the PubT-2010 Healthy Retiree Table, adjusted as follows:
  - Males: 112 percent of the rates prior to age 80 and 94 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
  - Females: 83 percent of the rates prior to age 80 and 106 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
- Post-retirement non-disabled beneficiary mortality assumptions were changed to the Pub-2010 Contingent Survivor Table, adjusted as follows:
  - Males: 97 percent of the rates for all ages, with generational projection using scale MP-2019.
  - Females: 105 percent of the rates for all ages, with generational projection using scale MP-2019.
- Disabled mortality assumptions were changed to the PubNS-2010 Disabled Retiree Table using 99 percent of the rates for all ages with generational projection using scale MP-2019.
- The mortality tables described above are generational mortality tables on a benefit-weighted basis.

*2019* The post-retirement benefit increases to the PERA benefit structure for those hired prior to 1/1/07 was changed from 0% through 2019 and 1.5% compounded annually thereafter, to 1.25%.

*2018* The assumed investment rate of return of 7.25% was used as the discount rate, rather than using the blended rate of 4.78%

*2017* The discount rate was lowered from 5.26% to 4.72%.

*2016*

- The price inflation assumption was lowered from 2.80% to 2.40%.
- The long-term expected rate of return assumption was lowered from 7.50% to 7.25% per year.
- The wage inflation assumption was lowered from 3.90% to 3.50%.
- The mortality tables were changed from RP-2000 Combined Mortality Table for Males and Females, as appropriate, with adjustments for mortality improvements based on a projection scale of Scale AA to 2020 to RP-2014 White Collar Employee Mortality for actively working people, RP-2014 Healthy Annuitant

**PAGOSA PEAK OPEN SCHOOL**  
**NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION**  
**CHANGES IN BENEFIT TERMS AND ACTUARIAL ASSUMPTIONS**  
**For the Year Ended June 30, 2022**

Mortality Table projected to 2020 using the MP-2015 projection scale for retirees, or RP-2014 Disabled Retiree Mortality Table for disabled retirees.

- The discount rate was lowered from 7.50% to 5.26%.

2015 There were no changes in assumptions or other inputs this measurement period compared to the prior year.

**NOTE 2 OTHER POSTEMPLOYMENT BENEFITS LIABILITY**

Changes in assumptions or other inputs effective for the December 31 measurement period for the following years ended:

2021

- The Medicare Part A premium increased from \$458 to \$471 per month.
- The health care cost trend rates from Medicare Part A premiums were revised to reflect the then current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

2020

- Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits were updated to reflect the change in costs for the 2020 plan year.
- The health care cost trend rates for Medicare Part A premiums were revised to reflect the then current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.
- Price inflation assumption decreased from 2.40 percent per year to 2.30 percent per year.
- Real wage growth assumption decreased from 1.10 percent per year to 0.70 percent per year.
- Real rate of investment return assumption increased from 4.85 percent per year, net of investment expenses to 4.95 percent per year, net of investment expenses.
- Wage inflation assumption decreased from 3.50 percent per year to 3.00 percent per year.
- Salary scale assumptions were revised to align with revised economic assumptions and to more closely reflect actual experience.
- Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience.
- The pre-retirement mortality assumptions for the School Division were changed to the PubT-2010 Employee Table with generational projection using scale MP-2019.
- Post-retirement non-disabled mortality assumptions for the School Division were changed to the PubT-2010 Healthy Retiree Table, adjusted as follows:
  - Males: 112 percent of the rates prior to age 80 and 94 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
  - Females: 83 percent of the rates prior to age 80 and 106 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
- Post-retirement non-disabled beneficiary mortality assumptions were changed to the Pub-2010 Contingent Survivor Table, adjusted as follows:
  - Males: 97 percent of the rates for all ages, with generational projection using scale MP-2019.
  - Females: 105 percent of the rates for all ages, with generational projection using scale MP-2019.
- Disabled mortality assumptions were changed to the PubNS-2010 Disabled Retiree Table using 99 percent of the rates for all ages with generational projection using scale MP-2019.
- The mortality tables described above are generational mortality tables on a benefit-weighted basis.

**For the Year Ended June 30, 2022**

*2019*

- Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits were updated to reflect the change in costs for the 2019 plan year.
- The morbidity assumptions were updated to reflect the assumed standard aging factors.
- The health care cost trend rates for Medicare Part A premiums were revised to reflect the then current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

*2018* There were no changes in assumptions or other inputs effective this measurement period compared to the prior year.

*2017* The Medicare Part A premiums were raised from 3.00% to 3.25%, as well as the gradual percentage rose from 4.25% in 2023 to 5.00% in 2025.
